

804-11

Horizontal Band Saw Machine

PRODUCT OVERVIEW

Designed for cutting a wide range of ferrous and non-ferrous metals, this bandsaw offers a robust structure, stable operation, reliable performance, and high cutting accuracy. It is an ideal solution for medium- and small-batch production in workshops and manufacturing facilities

FEATURES

- Hydraulic saw frame feed with infinitely variable speed control
- Hydraulic vise clamping for secure workpiece holding
- Precision blade guiding system with rolling bearings and carbide guide blocks
- Optional powered roller table for efficient material feeding

Specification	804-11	Specification	804-11
Max. cutting capacity (mm)	●400/ 500 × 400	Vise clamping	Hydraulic
Saw blade speed (m/min)	19/30/50/65/90	Blade tension	Manual
Saw blade size (mm)	34×1.1×4650	Main drive	Worm Gear Drive
Main motor (kW)	4	Feeding mode	Manual
Hydraulic motor (kW)	0.75	Working table height (mm)	600
Cooling pump (kW)	0.06	Dimension L×W×H (mm)	2350×1250×700
