

806-11

Sample Notch Hydraulic Broaching Machine

PRODUCT OVERVIEW

Hydraulic broaching machine for machining V- and U-shaped notches used in impact test specimens. Designed to produce qualified notches in a single broaching operation with high repeatability and simple operation.

KEY FEATURES

- Hydraulic drive with motor-driven oil pump.
- Supports 2 mm V-notch and 2 mm U-notch broaches.
- One-pass broaching ensures excellent consistency.
- High-hardness broach material for long service life.
- Easy operation and maintenance.

Specification	806-11
Notch type	V type / U type (2 mm)
Sample size	10 × 10 × 55 mm
Broaching speed	2.5 m/min
Broach stroke	340 mm
Broach material	V6Mo5Cr4V2

STANDARD ACCESSORIES

- Host machine ×1
- 2 mm V broach ×1
- 2 mm U broach ×1
- Hydraulic system ×1
